Preface	ix
Lori D. Panzino-Tillery - President, National Association of Telecommunications Officers and Advisors (NATOA)	
Introduction	xi
Chapter 1. Why now is the time for municipal broadband wireless. 1	
To keep your technology evaluation focused, understand the terms	3
Wireless	3
High speed	5
Economics	7
Business model	8
Three objectives factored into Philadelphia’s decision to move forward	10
Municipal broadband improves business operations	11
The benefits of thinking like a business	13
Addressing the digital divide and other social issues	14
Municipal broadband boosts economic development	16
Counties have wireless technology needs too	18
Interview with Mayor John Street	19
To sum it up	23
Chapter 2. Defining the Strategic Goals and Tactics for Broadband Wireless	25
How the Philadelphia pioneers did it	26
The basic foundation of the business case for wireless	28
Keeping everyone on track	30
Strategic considerations	31
Communicating less expensively and more effectively with existing constituents	31
Making the business case	32
Enabling constituents to get more effective service and support	34
Improving internal communications and business operations	37
Putting the numbers in play	38
Leave no stone unturned	40
There’s more than money involved here	41
Communicating more effectively to prospective constituents	42

Good tactics are the cornerstone of successful strategies	43
To sum it up	46

Chapter 3. Oh Brave New Wireless World:

Municipalities embracing change	49
Cities on the move	49
Philadelphia’s License & Inspections Department leads a new-age revolution	49
More than paperwork reduction	51
Oh, Canada! Mobile tap dancers count trees, save the day	52
In Corpus Christi, TX a single seed bearing multiple fruits	53
Who let the dogs out! Woof!	54
New York, New York loves wireless	55
The fire burns hot for wireless in San Diego	55
City stakeholders adopting wireless	57
37 tons and what do you get? Another day older and a need for wireless	58
A port in the storm builds brand loyalty with kids	59
Nothing could be finer than wireless in Carolina	61
City partners take to wireless	62
Success one Philly neighborhood at a time	62
Closing the divide one citizen at a time	63
Making sweet music with wireless in Motown	64
To sum it up	65

Chapter 4. Philadelphia creates the winning project team

67	
Basic team composition	68
Observations from Dianah Neff	69
Characteristics of good team players	73
The project leader	73
The project manager	74
Industry consultants are valuable team members	76
The executive steering committee	77
Project teams for city department and community applications	79
Members of the department team	80
Project teams at the community level	82
General guidelines	83
To sum it up – a project team checklist	84

Chapter 5. Team Philadelphia – a consensus-building machine 89

What you say and how you say it holds the
key to consensus building 90
Philadelphia puts its ducks in order 92
 Building consensus within city hall 93
 The Mayor steps into the breach 94
 Early leadership can take many shapes 96
 Department level consensus building
 presents challenges 97
 Don't forget the rank and file 99
Building consensus within the project team 100
Consensus building among constituents 102
 Smaller towns and cities have it easier 103
 In the Philly trenches for consensus 103
 Business communities may require different tactics .. 104
 General guidelines for constituent consensus building ... 105
 Diary of a Community Liaison 106
Building political consensus 107
 Achieving victory on the political battlefield 108
 Bringing businesses into the legislative fray 109
 Knowledge distribution is power 110
 When the opponent is philosophy 110
 What if the decision is fait accompli? 112
To sum it up 113

Chapter 6. Understanding the Needs and the

Will of “We the People” 115

Philadelphia's atypical focus group efforts produce
great feedback 116
 Philly sets itself up for success 116
 Identifying key issues 117
 Facilitating the focus groups 118
 Running focus groups effectively 119
 Philly goes the extra mile to maximize benefits 120
Town meetings bring it all home 122
 In the final analysis 123
Focus groups – the view from within 124
Can RFIs (requests for information) subvert the
value of focus groups? 128
 The proper role of the RFI 129
 What if there's no will? 130
 Art of the Possible versus Art of the RFI 131
 Do your own homework 132
To sum it up 134

Chapter 7. Key Questions That Define a Deployment	135
Which business model is best?	135
The wholesale model takes hold	137
Two pivotal technology choices	139
Buy it, build it, rent it?	139
Questions to consider	140
Should we standardize or use proprietary systems?	142
Mobile devices create an exception	145
Security – boogie man of the under-informed, handmaiden of the obstructionist	146
Morrow County, where security failure isn't an option	147
Knocking down the Boogie Man	149
Address security and get on with the business at hand .	151
Tips on department managers' role in security	154
To sum it up	155
Chapter 8. Aligning Technology Initiatives with End User Needs ..	157
Understanding your options	157
Components of the broadband network	157
Mobile workforce technology	159
Constituent technology	160
Aligning technology initiatives with mobile workforce needs	161
Ten business-side tips for getting the best from your IT group	162
Effective alignment begins with your state of mind ...	162
Lean towards simplicity and prioritization	162
Be clear on your business objectives	163
Be clearer on quantifying or qualifying results	164
It takes two to tango – IT's role in the relationship	165
Getting inside of each other's head	166
To be or not to be. That is the alignment question	167
Aligning technology initiatives with community needs	168
Taking it to the streets	169
The big juggling act	170
Exploring technology alignment options	171
Improving health and public safety	171
Economic advancement for the business community	173
Bridging the digital divide	174
Improving the quality of education	175
Moving beyond the classroom	176
Integrating with the collegiate world	177
To sum it up	179

Chapter 10. Take Me to the Pilot Project	181
Pilot projects 101	182
The municipal network	182
Workforce wireless applications	184
Constituent projects	185
Philadelphia's pilot projects	186
Making the infrastructure work	186
Life's little challenges	188
License & Inspection's pilot project	189
Taking it live	190
Mini muni roundtable	192
Pilots in the community	194
Working with their heads in The Cloud	194
Live 8 puts The Cloud to the test	195
The neighborhoods are alive with the sound of WiFi .	197
To sum it up	199
Chapter 10. Moving to Full Deployment	201
Engage all engines - - make the RFP process work for you	202
This isn't your father's technology RFP	202
Is your point person in the know?	203
Vendor roundtable offers deployment insights and guidelines	205
1. What do you feel is the role of a municipality and vendors/service providers in a partnership to bring this type of technology to citizens?	205
2. Can vendors with a financial interest in the outcome be an objective partner in key municipality decisions? ...	208
3. What are some tips to government groups to help them work more effectively with vendors and service providers?	209
4. Are there lines that vendors should not cross in their working on a joint venture such as this?	211
5. Can vendors get caught up in the politics of the government structure? How do you minimize the impact?	212
6. For vendors, do you expect there to be significant operational differences between delivering products and services to small versus large city governments? ...	214
Don't forget your marketing campaign	215
Moving forward with mobile workforce applications	216
Can you really get there from here?	217
Managing people	218

Guidelines to managing expectations –	
a never-ending job	220
Take advantage of early successes	222
To sum it up	223
Chapter 11. TCO – the stealth threat to a successful deployment..	225
Understanding total cost of ownership (TCO)	226
The price of “Free”	227
The private cost of free	229
Avoiding the TCO impact of obsolescence	230
Proper previous planning is key	230
Avoiding obsolescence with workforce applications	232
Bringing a broader vision to department thinking	234
TCO management guidelines	236
The sometimes forgotten TCO factors	237
Look for the ideal vendor partners	239
No one size fits all	240
The interface that launched a 1000 ships – the value	
of good user interface UI design	241
Operational issues that affect UI design	241
Specific UI design recommendations	242
To sum it up	243
Chapter 13 – The ROI at the End of the Rainbow	245
Looking for ROI in all the right places	246
Going back to the foundation	247
Measuring ROI	248
Intangibles make ROI analysis difficult	249
Evaluating the ROI of workforce applications	250
Did you achieve the planned ROI?	251
The unplanned benefits may be the greater ROI	253
The future factors into ROI	254
Budget management issues	255
Budget setting for infrastructure deployments	255
Additional factors impact the budget	256
Budgeting for mobile applications	258
How small communities and non-profits can	
approach budgeting	259
To sum it up	259
Epilogue – Looking Forward	261
How’s it look from the top?	261
Where are we going?	263
How we’re going to get there?	265
Thoughts on fighting the good fight?	266
What’s the next level?	268
How the technology scene evolving?	269
